Beaver Dam has a cotton factory containing 300 looms. It cost \$250,000, and it is said the goods manufactured are excellent in all respects. State Treasurer Mr. Petridge is a heavy stockholder in the company.

The case of the state against George Scheller, charged with burning the Newhall house, is being tried in Milwaukee. Already there is strong circumstantial evidence against him, but nothing but a confession will ever give the public the facts regarding the origin of that terrible calamity.

## LAWLESS LABOR.

Riot of Rolling Mill Strikers at Springfield, Ill.

One Man Killed and Others Injured --The Scheller Trial.

Bloomington, Ill., Students on the Rampage--An Irish Demonstration in Boston--A Chicago Shootist.

SPRINGFIELD, April 13.—The city was wild with excitement last night over a series of lawless acts, attended with a loss of life, growing out of the labor trouble at the rolling mills. Bad feeling had existed for some time against the company and non-union men, but it was thought that no trouble would arise, and a guard of deputy sheriffs which had been stationed at the mills was yesterday withdrawn. Yesterday noon, some of the non-union men went to the Sangamon river to fish. While passing through a small boat of timber they were attacked by a number of union men supposed to have followed them from the mill. Two men were badly beaten, and at 7 o'clock last evening were lying where they fell. About 7 o'clock p.m., the day turned out, and while a number of workmen were standing under the chute of the south co-operative coal shaft a pistol shot was fired from the upper works. This was followed by a shot, and almost instantly a volley of shot-guns and revolvers poured in from the below. Three men fell; Walden pierced by thirty-four balls, dying instantly; Samuel Britton, shot through the chest, and Joseph Mervin, shot through the chest and abdomen. As far as possible the shots were directed at a non-union. Everything is quiet at this writing, but a riot is feared at any moment, and it is probable that a military force will be sent out to-day.

### THE SCHELLER TRIAL.

MILWAUKEE, April 13.—The Scheller trial was resumed yesterday morning, with William Linnahan, engineer of the Newhall house, on the stand. The witness gave testimony that fixed beyond a doubt the store-room of the Goat's Head bar shop as the point where the fire originated, and located the lowest point where he saw the flames creeping in and up the elevator shaft at the exact spot where the storeroom gas fixture was. Clinton, Iowa, April 13.—The Chicago & Northwestern railway raised the embargo on Dakota emigrant's movables, which has been in force about three weeks, owing to inability to handle the enormous amount of freight offered. A great many Dakota bound people along the line have been anxiously awaiting the opportunity to ship their goods.

AFTER THE CONTINENT.

MILWAUKEE, April 13.—President Colby, of the Wisconsin Central railroad, is now in New York closing negotiations for the sale of the Wisconsin Central to the Villard syndicate, being a preliminary step to the establishment of a transcontinental line from New York to Portland, Ore.

### CINNERS.

CLINTON, Iowa, April 13.—The Chicago & Northwestern railway raised the embargo on Dakota emigrant's movables, which has been in force about three weeks, owing to inability to handle the enormous amount of freight offered. A great many Dakota bound people along the line have been anxiously awaiting the opportunity to ship their goods.

DENVER, Colo., April 13.—The Denver & New Orleans railroad has brought suit in the United States court here against the Atchison, Topeka & Santa Fe railroad for damages amounting to \$1,000,000, caused by the refusal to exchange passengers and the opening of its own road line. Mr. T. C. Atchison still refused to exchange cars, in accordance with the decision of Judge Hallett, although claiming to.

KNOXVILLE, Tenn., April 13.—The fast steamer has been driven at the Tennessee and Kentucky state line connecting the Knoxville branch of the Louisville & Nashville railroad with the East Tennessee road. This morning a steamer from Knoxville to Louisville 230 miles. On the Tennessee side near the state line two live marmots in one mala.

WINNAMAC, Ind., April 13.—Col. Hussey and Mr. J. Kingston Lee have been here in the interest of the Rochester, Roncallie and St. Louis railway, a new line proposed from Rochester, Ind., through Winnamac to Gilman, Ill. The surveyors will be put on the line this week.

BOSTON, April 13.—The annual report of the Kansas City, Fort Scott & Gulf road shows gross earnings last year of \$1,783,000, an increase of 3 per cent. over the previous year, and net earnings of \$750,300, a gain of \$86,000.

### NEW YORK NOTES.

NEW YORK, April 13.—The Herald has the following: To the editor of The Herald: I am willing to fight Mike Donovan to a finish. Topicks & Santa Fe railroad for damages amounting to \$1,000,000, caused by the refusal to exchange passengers and the opening of its own road line. Mr. T. C. Atchison still refused to exchange cars, in accordance with the decision of Judge Hallett, although claiming to.

W. Leo Chang & Co., Chinese merchants of Waycross, Ga., have petitioned the Chinese minister, through their attorney, for redress from the United States government for wrongs done them and enterprizes conducted by Chinese at that place. They claim that the cause of the twenty-fourth article of the treaty between the United States and China in 1844 is applicable to their case, and they are entitled to damages.

NEW YORK, April 13.—The health authorities announce that nearly all the small-pox cases in this city are of the kind known as "black small-pox." There have been over twenty cases since Jan. 1, nearly all of which have been hemorrhagic, and the mortality has been nearly 70 per cent. The health officers do not fear a general epidemic now, but are puzzled to account for the change in the character of the disease.

NEW YORK, April 13.—Somebody started a report in Wall street to-day that Grant was dead. He heard the report this evening and laughed over it. "We were afraid when we first heard it," said Mrs. Grant, "that something might have happened to my son Ulysses, but we were this evening that he and our other relatives in the city are in good health, so it seems to have been a pure hoax."

If the general were a sick man, like Vanderbilt, I should not be so surprised at the hoax. Several inquiries have been made here this evening, and we learned in that way how generally the report had been circulated. Mr. Grant was never in better health, his family said.

### A LITTLE "SHEEO."

BOSTON, April 13.—The Irish people in the south cove indulged last night in something very near a riot in front of the house of the Garrison family on Hudson street. Nearly a thousand of them, men, women, and children, surrounded the domicile, cursing, shouting, beating, etc., throwing stones, and making other demonstrations to show their disapproval of the suit against the archbishop and Father Flannigan. Tar barrels were broken up and boisterous built upon the sidewalk and upon the steps of the house, while sticks and stones were furiously hurled against the sides of the house and at windows. The family discreetly remained within doors, fearing personal violence. Once when a lighted torch containing tar and other inflammable material was held up to the door, Mr. Garrison stepped out and kicked it into the street. He was greeted upon his appearance with hisses and curses. So uproarious and demonstrative was the mob that word was sent to the police, and the street was cleared. To-day the house is guarded and everything is quiet.

### COMSTOCK BEATEN AGAIN.

BOSTON, April 13.—Ezra H. Heywood, the well-known disseminator of free-love doctrines, was acquitted in the United States district court yesterday afternoon of several charges preferred by Anthony Comstock, of sending obscene literature through the mails.

# THE GAZETTE.

**FRIDAY, APRIL 13.**

The circulation of the Gazette is larger than the combined circulation of any five newspapers in Rock County.

**MEDILL ON FLORIDA.**

**What the Tribune Man Thinks of Its Resources and Prospects--The Agricultural and Political Outlook.**

**NEW YORK.** April 13.—Talking with Joseph Medill, the editor of the Chicago Tribune, who is just returning from the scenes where President Arthur is now visiting in Florida, he said:

"I did not go to Florida to fish, but I think President Arthur will find an abundance of sport there. I had not been south for several years, and I wanted to find out something about the people and the country, as well as take a little vacation."

"Did you find many northern settlers in Florida, Mr. Medill?"

"Yes, a great many. The best property in the state is rapidly falling into the hands of northern men. All the railroad property, with a few exceptions scarcely worth mentioning, has northern owners. There is one system, with the southern standard gauge of rail, five hundred miles in length, which extends east and west, north and south, and transversely across the state from Pensacola to Cedar Keys, and about half way down that line. An important road is now being constructed, running due south from Waldo, about 180 miles. Northern white Republicans are furnishing the capital, and Florida black Republicans the labor to develop the state."

"What is the sentiment of the southern people in regard to the north, Mr. Medill?"

"The old Confederate white people appear quite amiable towards northern people, and profess great friendliness for them. They claim to be thoroughly reconstructed and reconciled to the new state of things, and admit generally, that the rebellion was a blunder or mistake, and say they wouldn't restore the previous status if they had the power. I was strongly impressed with their frankness as they went along from Pensacola to Jacksonville, and to Jacksonville to Washington. There is only one city in which a northerner is likely to be surrounded by a Confederate sentiment, and that is Charleston. It is about the only place where one sees pictures of the Confederate leaders in public places, and even those have been removed, except in the case of Lee, which is a picture of Davis in Charleston. They maintain two military schools in Charleston. I asked some of the citizens what was the object in keeping up military academies at the public expense, but got no satisfactory answer. They seemed to be reluctant to give their true reason, which was teaching young men the art of war. Still, the northern people will, and seem quite cheerful. Business appears to be fairly good."

"Are there many noticeable improvements in the conditions of the country since you went in the south?"

"I found a very decided improvement all through the country since I visited it eight or nine years ago. There is more contentment now than ever, and a greater number of white people at work; the colored people appear to be all at work, and have improved immensely in their seventeen or eighteen years of freedom. Every colored man I saw was in better condition than when I last saw him. Apparently they are in better condition than ever before; they are acquiring property, living better, dressing better, and their children are going to school very generally. It is my opinion that there are one-half of all the colored children in the south of all the old and new states, now, in better condition than ever before."

"DORSEY'S REASONS.

There are now before the department of the interior claims covering titles to more than \$20,000,000 acres of land, of which some 50,000,000 acres are embodied in individual entries. Many of these claims are without merit, but the land offices have been and are compelled to treat doubtful claims as valid, because it couldn't investigate facts, and congress has never given adequate power to make this investigation.

## WASHINGTON ITEMS.

**The Whisky Men Balked--Defense Closed in the Star-Houte Case--Personal Gossip--Odds and Ends.**

**WHISKY TAX Evasion.**

**WASHINGTON,** April 13.—The Canadian customs regulations permitted whisky to be imported for re-exportation in packages of less than seventy gallons. Bonded whisky in the United States, on which the wish of the holders is to evade the taxes, is stored in barrels of forty-five gallons. Under the revenue laws those packages cannot be broken.

The portion of the whisky people was that the Canadian authorities would relax the seventy gallon regulation so as to admit forty-five gallon packages. For a time it seemed probable the petition would be granted, especially after Secretary Frothingham virtually asked for it. Agents of the whisky people were on hand, and as late as the latter part of last week telegrams were received that the last obstacle had been removed, and that the whisky men would win the day.

The Canadian authorities had before them a statement of the facts as to the proceedings in congress on the subject, and they were not ignorant of the state of public sentiment on this side of the border, or of the precise motive for seeking to relax the seventy gallon limit of regulations. The final action of the council, refusing to grant the petition of the whisky people, was wholly unexpected. So confident were the holders of the whisky that they would win in Canada that the plan for publication under the name arrangement was published. The name of the arrangement was "Confederates." Bringing it back again was not to exceed \$1.50 a barrel or about 75 cents a gallon, in the place of the 70 cents tax.

The Canadian customs regulations permit whisky imported into the dominion to be exported after the lapse of seventy hours.

The law permitting the exportation of whisky for re-exportation is an old one, and is part of our customs system. It existed long before the internal revenue laws. Precisely what will be the next move of the speculators is not determined. Exportation to Europe, most likely.

**FAUCONNET'S CLAIMS.**

**INDISCREET FRIENDS.**

Minister Foster, of Indiana, who is the host of the new postmaster general, said he was sorry to see that some of Judge Graham's friends were mentioning his name in connection with the next presidential campaign. Foster regarded this as indiscreet and ill-timed friendship, and he knew that it was disastrous to such disengaged by Judge Graham. There was no political significance beyond the recognition by the president of the fitness of the judge for the high post to which he had been called. He is convinced Judge Graham would like to see Gen. Hancock elected. At the national convention the delegates from Indiana voted solidly for Mr. Bayard until it became evident that Gen. Hancock was the popular choice.

"How would the nomination of Gen. Butler be received?"

"I do not believe that Mississippi would like to see Gen. Hancock elected. At the national convention the delegates from Indiana voted solidly for Mr. Bayard until it became evident that Gen. Hancock was the popular choice."

"I think it will be one of the main questions, so far as the state is concerned, is it in favor of protection, and would not support a protective tariff, or a tariff candidate? At the national convention the delegates from Indiana voted solidly for Mr. Bayard until it became evident that Gen. Hancock was the popular choice."

The New Musical Critic.

The new musical critic of the Cranberry Clarion was a great card. Nobody who gazed upon his gossamer limbs, his spectacled orbs or the air-line crease which divided his hyacinthe looks into equal sections on either side his bulging brow, could doubt this for an instant.

The managing editor, an earthly creature, however, had his doubts about the ethereal young man; but as the musical critic had come well recommended, the managing editor stilled his doubts and showed the young man his desk.

The first job the young man was given was to do the opera on the coming night. He saluted forth in stunning evening dress, with a full score under his arm and his heart bulging with melodic anticipations.

Returning, and having finished his critique, he took it to the managing editor, who bade him sit down and read the stuff aloud. The young man's soul was terribly shocked that his splendid composition should be called "stuff." However, he began, with as good grace as he could under the circumstances, as follows:

"The tuneful sweetness of the maestro's *chef-d'œuvre* was never interpreted with more engaging *esprit de corps* than by the artists in this melodious aggregation. The chromatic tints were laid on with a prodigality of fervor that sublimated the appoggiatura and apothecized the contrapuntal tone-waves—"

"Hold up!" exclaimed the managing editor, "what do you mean by all that?"

"Meant," ejaculated the musical critic; "how do you suppose I know? I've done work for the great dailies, and nobody ever asked me what I meant. Shall I go on?"

The managing editor nodded, and the young man proceeded:

"And apostrophized the contrapuntal tone-waves with dynamic expression. Signora Screechow, the primest prima donna, was in her best voice, imitating as it were the voice of the Muse of Music, number thirty-eight (38) in the original plat of the village of Jacksonville, as per map thereof, so much thereof as may be sufficient to raise the amount due the plaintiff, and to interest a great many attorneys fees and disbursements in the aforesaid action, as provided in said judgment, and which may be sold separately without injury to the parties interested."

CIRCUIT COURT, ROCK COUNTY.—Samuel A. Hudson, plaintiff, against Charles Proctor, and J. B. Proctor, his wife, Mrs. M. Proctor, and Clara Proctor, his wife, David R. Proctor, and Edgar H. Dury, defendants.

Pursuant to and by virtue of a judgment of foreclosure and sale made and recorded in the circuit court for Rock county in the above entitled action on the 13th day of June, A. D. 1880, in favor of the above named plaintiff, and in case of non-payment of the same, I will offer for sale and sell at public auction, in my county, in front of the court house, to the highest bidder, in the city of Janesville, in said county, the land fronting on the Court House in said city.

On Monday, the 21st day of May, A. D. 1883, at 10 o'clock in the forenoon, of that day, lying and being in the County of Rock, State of Wisconsin, and known and described as follows: Number eight (8) in the original plat of the village of Jacksonville, as per map thereof, so much thereof as may be sufficient to raise the amount due the plaintiff, and to interest a great many attorneys fees and disbursements in the aforesaid action, as provided in said judgment, and which may be sold separately without injury to the parties interested.

All who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a addressed envelope to the Rev. JOSPEH T. INMAN, Station D New York City.

BRIEFS.

No arrests were made by the police last night.

There was no criminal business before the municipal court to-day.

—All the piling under the new iron railroad bridge above the dam has been removed.

—Only one week more of school this term, when there will be a vacation of two weeks.

—The indications are that the grand army boys will have a crowded house at their entertainment next Thursday evening.

—Seven new houses have already been put up and enclosed this spring at Monterey, and preparations are going forward for the building of others.

—The soda fountain of Messrs. Stearns & Baker, West Milwaukee street, is in full operation, and is a first class place to get a good glass of soda water.

—Remember the stereoscopic exhibition at Cannon's hall this evening, for the benefit of the Y. M. C. A. The hall should be crowded.

—Racing Journal: "Levi Turner will have charge of Klinker's 'Dutch Girl,' and a number of other trotters this season. He will work them at Janesville."

—Yesterday afternoon the engineers of the C. B. and Q. road ran a line up Water street to Milwaukee, thence to the island, north of water power, at which point Prof. Henry says the depot will be located.

—It would improve the appearance of both our city parks if a few healthy trees were set out in place of some of the sickly and dead ones which now encumber the public grounds.

—A visit to either of the freight depots in this city at the present time will convince almost any one of the enormous amount of freight handled in this city, especially in the agricultural implement line.

—The surveyors of the C. B. and Q. railway, left the city this morning, working their way to Indian Ford, which place they will reach to-day, and from that place they will go to Edgerton, and then Madison.

—The bright light last evening, about seven o'clock, just east of the blind institute was caused by the burning of two or three brush heaps. The fire was seen in the city, and some thought it might be some house or other building in that locality.

—The La Crosse common council have passed an ordinance fixing the saloon license in that city at one hundred and fifty dollars. The saloon men are holding indignation meetings, and otherwise clamoring for the repeal of the obnoxious law and lower license.

—Messrs. Frank F. and H. H. Pierson have purchased the stock of guns, ammunition, and other goods in the store formerly kept by Mr. J. E. Ebbe, on North Main street. They have also taken a lease of the building, and will take possession of the same next week, continuing the same business.

—Messrs. Strackler, Miles & Co. have just received an order for one hundred of their Dead-lock key carriers, from Madison, and the prospects are good for the sale of three hundred more in Madison.

They have also received an offer to manufacture them on royalty for the entire northwest. This new key carrier, a detailed description of which was published in the Gazette last week, takes the lead over all competitors.

—Horsemen have completed arrangements for a Wisconsin trotting circuit, and the cities to be visited are Beloit, Janesville, Oshkosh, Milwaukee, Fond du Lac and Woodstock, Ill. Racine is left out because there is no good track here to trot on. The circuit will open on June 1. Several horses from the stables of J. C. Case will be entered, and Henry Laughlin the well known driver, will handle them. There is no doubt many others from this city will take part.—*Racing Journal.*

—The half a mile race at the roller skating rink last night was won by Mr. Orion Sutherland. There were seven competitors—Orion Sutherland, August Elder, Henry Elder, Charles Green, Frederick Young, Edward Griswold, and Frank Webster. There were some excellent skaters on the floor last night, and among them were several ladies. If the ladies had been permitted to contest for the silver cup, we doubt very much if Mr. Sutherland had won it, as his wife would probably have left him behind. The children will have a matinee to-morrow afternoon, when a half-mile race will take place and a prize given to the winner.

—Dyspeptic, nervous people, "out of sorts," Colden's LIQUID BEEF Tonic will cure. Ask for Colden's. Of Druggists.

The Rescue Boys.

Last evening the Rescue hook and ladder company held their annual meeting for the purpose of electing officers for the ensuing year, which resulted as follows:

Foreman—Henry Blunk.

Assistant Foreman—Wm. Kelley.

Secretary—W. E. Speier.

Treasurer—Wm. Tuckwood.

Gathering this Evening.

Stereopticon benefit of the young men's christian association in Cannon's hall. Bowery Temple No. 3, P. C. in Odd Fellows hall.

People's Lodge, Independent order of Good Templars.

W. H. Sargent Post No. 20, G. A. R., at post headquarters.

First a cold, then bronchitis. Check the first with HALEY'S HONEY OF HONEY AND TAN.

Pike's TOOTACHE DROPS cure in one minute.

The weather.

REPORTED BY PRESTICE & EVENSON, DRUGGISTS. At seven o'clock this morning the thermometer registered 46 degrees above zero. Cloudy and threatening—easterly wind. At one o'clock p.m. the register was at 63 degrees above zero. Clear, with a strong south wind. For the same hours one year ago the register was 33 and 47 degrees above zero.

WASHINGTON, April 13, 1 a.m.—The following are the indications for to-day:

Lake Region—Slightly warmer, partly cloudy weather, and occasional rain in the upper portion, east to south winds and lower barometer.

Dr. Huntley in Washington.

The Rev. Dr. Huntley preached his first sermon at the Metropolitan church in Washington on Sunday morning. The Washington Post of Monday devotes considerable space to the sermon, giving a very readable synopsis of the discourse. The great church was crowded with a highly intelligent audience that listened most attentively to the sermon. His text was "And the Lord said unto Moses, Wherefore criest thou unto me?" Speak unto the children of Israel that they go forward." Before he began his sermon a few pleasant introductory remarks which put his hearers in an excellent frame of mind to enjoy the sermon.

"And the Man Who Talks Much.

We want to say a word to you who make a living with your tongue. You certainly must have a clear, strong voice to engage your listeners. Dr. Thomas' ELECTRIC OIL for sore throat, colds, and hoarseness is unequalled. Use and admire.

## THE FREE LIBRARY:

An Important Meeting of the Library Association this afternoon.

The Sale of Tickets Will Commence To-Morrow Morning.

The ladies connected with the free public library association held an important meeting in the rooms of the association in the Bennett block this afternoon, which was well attended. The meeting was called for the purpose of completing the arrangements for disposing of tickets for the benefit entertainment to be given by Colonel Burr Robbins' great American and German allied shows the last of this month. The ladies at their meeting this afternoon exhibited a disposition to enter into the work of canvassing the city with a will, and are determined that every citizen shall have an opportunity to purchase one or more tickets. For the purpose of making the canvass thorough and complete they resolved to divide the city into districts, and have appointed committees to work them. The districts have been so arranged and the committees appointed that the work of canvassing can be commenced simultaneously in all parts of the city, and completed in a short time. It will be a matter of great convenience, therefore, if all will be ready to take and pay for the tickets when called upon the first time, thus saving the committee the trouble and necessity of going over the same ground the second time. It must be borne in mind that this exhibition will be one of the very best that will visit Janesville this season, and, besides aiding to replenish the empty purse of the library, the people who purchase tickets will receive more than their money's worth in the way of first-class amusements. The ladies start out on this canvassing expedition with the determination of putting at least two thousand dollars in their treasury, and will not stop short of that amount; it is suggested that even a larger sum ought to be realized. The canvassing committees appointed this afternoon are as follows, together with the districts assigned to them that are under the management of Mr. Robbins.

Personal.

—Postoffice Inspector J. D. King was in Madison yesterday.

—Mr. J. M. Knell has been engaged to sing bass, and lead the choir of St. Patrick's church. Under Mr. Knell's leadership, and with the late additions to the choir of that church, the singing cannot fail to prove satisfactory.

—The following is from the Madison Democrat: "Ogden H. Fether, Esq., one of Janesville's most influential attorneys, has been attending to a suit before the Dane county circuit court. He finds many friends in the capital city."

—Mr. John McCalloch, the genial foreman of the Gazette job printing establishment, was happily surprised yesterday, it being his 42d birthday. He was the recipient of a number of handsome presents from a few of his many intimate friends in this city.

—Mr. John Long, well known among the showmen of the country, and who formerly lived here, is in the city, having arrived on Wednesday evening. Yesterday he visited the wonders at Colonel Burr Robbins' farm, and witnessed the wonderful performances of the stud of imported Borosse ponies.

—We have been informed that Mr. Howard W. Tilton, formerly city editor of the Gazette, has purchased, in connection with his brother-in-law, Mr. Phii. A. Pryor, a book-bindery and a job-printing office in Omaha. Janesville is full of people who will heartily wish Mr. Tilton and Mr. Pryor the very best of success.

—Mr. J. E. Robbins, of New York, is a guest of the Pomeroy house. This gentleman has leased the privileges connected with the Burr Robbins' great American and German-allied shows, and in the side-shows will have some important attractions. Mr. Robbins has been in the tented field service for thirteen years, and therefore can properly be called a veteran.

—Dr. O. L. Lusk, who has been a member of Janesville society for several years, and was graduated from the Chicago medical college last year, is in the city on a visit. He is now in charge of the western business of Henry Thayer & Co., manufacturing chemists, of Cambridgeport, Massachusetts. He makes his headquarters in Chicago.

—The Howe scales have all the latest improvements. It is true economy to buy the best. Borden, Selleck & Co., agents, Chicago.

Husband No. 3.

The Chicago News-Letter prints a piece of news which will interest the readers of the Gazette. It concerns Mr. G. Fred Selleck, and as this gentleman once had an existence in this city, we assure the item will not be found stale.

'Florence Herbert, the actress, was married last week in St. Joe, Mo., to Mr. Daniel Miller, the business manager of her company. The ceremony was performed by the Rev. Dr. Miller of the M. E. church, St. Joe. The above facts are vouchered for by the St. Joe papers, but it is not explained how Miss Florence Herbert succeeded in getting rid of her other incubitance in the shape of a husband, Mr. G. Fred Selleck. There is no well known fact that they were married. Selleck, it is true, is \* \* \* \* \* but still no doubt he has rights the same as any other inhabitant of this peculiarly glorious and independent country.

"So far Miss Herbert has not been fortunate in her husband. She must be a female Bluebird.

"After the divorce with Herbert Miss Florence, as she calls herself, married the fascinating Fred Selleck, and for two or three years they managed to jog along pleasantly enough together until the episode of the pretty player came to disturb the harmony of their married life. Shortly after this affair they had a

## House Building.

The indications this spring point to the fact that there will be more house building done in Janesville this season than in any one year in the history of the city. Many houses will be built to meet the growing demand for tenements and others will be erected for the private use of the builders.

This is a healthy condition of things for Janesville. It shows that the city is progressing; that population is increasing; that capital which has been comparatively idle, will be used in a way which will benefit the city in a substantial way; and that our business men, mechanics and laborers, are prospering. We cannot call to mind a year when comfortable dwelling houses were in greater demand than now, and this could not be the case if business throughout the city was in an indifferent condition.

The indications this spring point to the fact that there will be more house building done
